

QS Performance Datasets

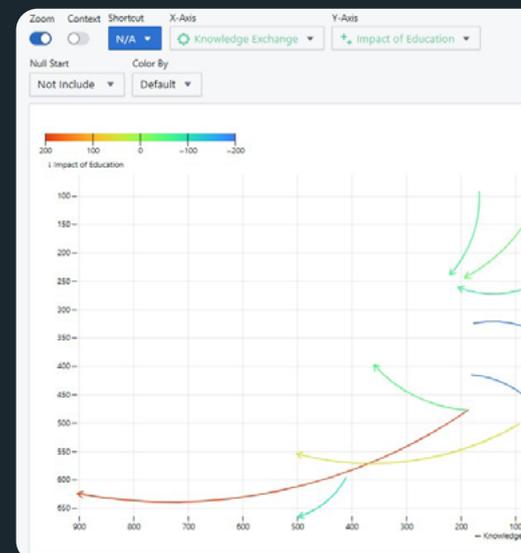

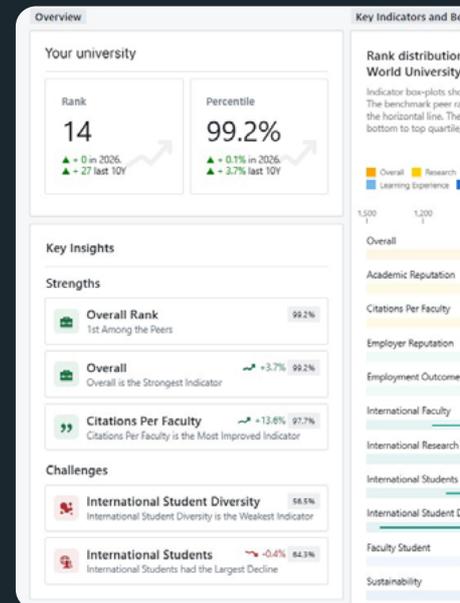

The power to shape your **global impact**

From rankings to recruitment and research funding, performance defines how your institution is seen and how it grows. The QS Performance Datasets transform fragmented data into clear, actionable intelligence for leadership and strategy.

Insight to act on

Using the world's most trusted ranking data, the QS Performance Datasets reveal where you lead, how you're perceived, and what it takes to elevate reputation into results.

- **Understand your position:** See strengths and areas to improve across global, regional, and subject benchmarks.
- **Compare with confidence:** Identify true peers and competitors with clear, evidence-based analysis.
- **Inform leadership decisions:** Provide clear, evidence-based insights that shape strategy and drive accountability.
- **Enhance visibility and reputation:** Track trends across academic and employer networks to enhance influence.
- **Empower teams with shared intelligence:** Build tailored dashboards and reports to engage stakeholders and guide coordinated progress.
- **Bring insights to life:** Through the HolonIQ platform, your data becomes visual, intuitive and actionable.
